

Event programme

Nobody knows more about REACH.

REACH Intensive

9 – 12 August 2010, Old Windsor, Berkshire

Who should attend?

This four-day residential course is suitable for anyone who needs to learn more about REACH, whether based inside or outside the EU.

This event is particularly suitable for manufacturers and importers of substances in the EU who have pre-registered, or non-EU manufacturers who have appointed an only representative, but who will be managing much of the SIEF and registration work themselves.

Book before 2 July for an “early bird” discount.

Why attend?

By popular demand REACHReady is now repeating the “Intensive” residential REACH training course. This course is designed to provide delegates with a complete overview of the REACH legislation - from the basics through to some of the technical and scientific issues which will need to be dealt with prior to substance registration.

Delivered by REACHReady world-leading experts this will be an excellent opportunity to spend an intensive period getting to grips with this complex regulation.

As with all REACHReady courses and workshops, there will be plenty of opportunity to ask questions of the experts and share your REACH experiences with others. Our experts will be on-hand throughout, providing attendees with the opportunity to discuss issues either formally or informally.

The booking price is inclusive of three nights’ hotel accommodation, meals, all course materials and of course 4 days of training.

Previous attendees said:

“The REACH Intensive course is a must for anyone that has heard of REACH but that is all - it will provide you with a most comprehensive overview of the regulation!”

“I found the REACHReady team very knowledgeable, approachable and supportive. The training sessions were interactive with plenty of opportunity to ask specific questions, the answers were clear and well informed.”

Outline Programme

DAY 1	REACH the process
	An introduction to the REACH legislation An overview of the registration process Late “pre-registration” Appointing an Only Representative (OR) or Third Party Representative (TPR) What REACH means for finished goods Substances of Very High Concern (SVHCs) Candidate List & Authorisation obligations
